This article will outline how to establish a
rational climate policy in the context of
many other, competing global issues. It
takes its starting point from the standard
climate models as described by the UN
Climate Panel, the IPCC, in its latest, fifth
assessment (IPCC 2013a) and impact
models (IPCC 2014a) along with its

Pakistan - Wikipedia

The Great Recession was a period of marked general decline observed in national economies globally that occurred between 2007 and 2009. The scale and timing of the recession varied from country to country (see map). At the time, the International Monetary Fund (IMF) concluded that it was the most severe economic and financial meltdown since the Great Depression.

Food is produced and processed by millions of farmers and intermediaries globally, with substantial associated environmental costs. Given the heterogeneity of producers, what is the best way to reduce food's environmental impacts? Poore and Nemecek consolidated data on the multiple environmental impacts of ~38,000 farms producing 40 different agricultural goods around the world in a meta ...

Reducing food's environmental impacts through producers ...

The term assault weapon is controversial. In state and federal gun laws, it generally refers to specific semiautomatic firearm models that are designed to fire a high volume of ammunition in a controlled way or that have specified design features, such as folding stocks or pistol grips (for differences in definitions across states, see the state implementation section on
