Answer all questions in each section below.

Lab10_Chicken Wing Dissection.docx - Chicken Wing ...

Fifteen different treatments of wings, none of them any good. Well, extending cooking time doesn't work. Turns out that it is possible to overcook chicken wings—even after I'd brined them in salt water, they dried out to a state beyond edible by the time the skin crisped significantly. Broiling on its own led to wings that were burnt on the outside and raw in the center.
