I am using this workaround on photoshop CS6, (thanks!) windows 8.1, laptop screen resolution 2560 x 1440. One issue I am having is that the images you are working with will have a “pixellated” look (much like the menus text does, which is now readable but not full-res looking) regardless of whether you are working with a large (i.e. big pixel dimensions) image or not, and regardless of how ...
