Development Induced Displacement And Resettlement

Development-induced displacement and resettlement occurs when people are forced to leave their homes and/or land as a result of development. This subset of forced migration has been historically associated with the construction of dams for hydroelectric power and irrigation but is also the result of various development projects such as mining, agriculture, the creation of military installations, airports, industrial plants, weapon testing grounds, railways, road developments, urbanization, conse

Development-induced displacement - Wikipedia

"Development-induced resettlement is one of the most important issues associated with large scale infrastructure construction, urbanization and industrialization globally. The impoverishment risks caused by resettlement have been recognized by affected people, international organizations, governments, developers, consultants and civil society.

Abstract. The object of this report is to present development-caused displacement and resettlement as a highly diverse global social problem occurring in all regions of the world, as a human rights issue, and as a source of challenges to public international law and and institutions providing humanitarian assistance.

Development-Induced Displacement and Resettlement: Social ...

Today, so-called 'development-induced displacement and resettlement' (DIDR) is one of the dominant causes of internal spatial mobility worldwide. Each year over 15 million people are forced to abandon their homes to make space for economic development infrastructure.

Development-Induced Displacement and Resettlement ...

The displacement process is guided by China's 'developmental resettlement' policy that aims to maintain or enhance the living standards of resettlers. Implementing this policy on such a massive scale is an increasingly difficult challenge for the Chinese government.

Policies and practice in Three Gorges resettlement: a ...

Development-induced displacement and resettlement (DIDR) refers to the collection of activities surrounding development that directly and indirectly create the spaces necessary to realize the...

Development-Induced Displacement and Resettlement ...

Dam-induced and mining-induced displacement and resettlement are two sector-specific terms that have emerged. People may need to make way for a change in land use, such as the creation of a national park, biodiversity reserve, conservation region or carbon credit offset scheme (conservation-induced displacement and resettlement). Increasingly, industrial tree plantations and large-scale agricultural projects are consuming land and displacing people (landgrab-induced displacement and ...

PROJECT-INDUCED DISPLACEMENT AND RESETTLEMENT The Key Citations series was developed to provide a starting point for persons new to the various fields of impact assessment. The references provided are an indicative overview of the field and establish what might be regarded as the core literature.

n KEY CITATIONS SERIES PROJECT-INDUCED DISPLACEMENT AND ...

Michael Cernea, a sociologist who has researched development-induced displacement and resettlement for two decades, writes that "Like becoming a refugee, being forcibly ousted from one's land and habitat by a dam, reservoir or highway is not only immediately disruptive and painful, it is also fraught with serious long-term risks of becoming poorer than before displacement, more vulnerable economically, and disintegrated socially."

Minimizing Development-Induced Displacement ...

Development-Induced Displacement and Resettlement in Bangladesh: Case Studies and Practices. A very first for Bangladesh, this edited book examines the complex issues of development-induced displacement and resettlement using case studies with "good practice" examples from a wide range of ongoing projects.

Development-Induced Displacement and Resettlement in ...

"Forced population displacement and resettlement is among today's most complex and controversial development problems globally. Despite advanced planning, displacement is virtually always a mess and a breeding ground for unanticipated consequences and impoverishment risks.

Development-Induced Displacement and Resettlement ...

The immediacy of displacement and the resettlement experience is the framework with which the authors and those interviewed reveal the tragedy of dispossession as well as the spirit of resilience and recovery. For several decades policy makers, practitioners, and academics alike have called for a refocus on 'people' in development.

Displaced: The Human Cost of Development and Resettlement ...

This book brings the discourses around social justice and sustainable development back into focus by looking at India's mining sector and the state's frameworks for economic development. The chapters in this volume analyse mining practices in the mineral-rich areas of eastern India through various case studies and highlight their immense human and environmental costs. This volume ...

The problems encountered in the allocation of compensation and resettlement in such projects form the focus of the article. The experiences of dam-induced displacement at the Sardar Sarovar Project in the Narmada River Valley Project in Gujarat in India are highlighted to serve as illustrations.

Development Induced Displacement: Issues of Compensation ...

Environmental migration should not be treated solely as a discrete category, set apart from other migration flows. A 2012 Asian Development Bank study argues that climate-induced migration should be addressed as part of a country's development agenda, given the major implications of migration on economic and social development.
