Even though the site continues to face legal issues due to the pirated access provided to books and articles, the site is still functional through various domains.

Ramadan Fasting And Educational Outcomes

If fasting is the main mechanism through which Ramadan affects academic performance, our results are informative about the relation between nutrition and educational outcomes. Based on previous research, we hypothesize that observing Ramadan, and especially observing the fast, will have a negative impact on participants' academic achievement.

Economics of Education Review

There are controversies over the effects of Ramadan fasting on pregnancy outcomes, and women's perspectives of fasting are diverse. This study aimed to assess the perspectives and pregnancy outcomes of maternal Ramadan fasting in the second trimester of pregnancy. A case-control study was conducted at Hawler Maternity Teaching Hospital of Erbil, Iraq from October 2017 to January 2018.

Perspectives and pregnancy outcomes of maternal Ramadan ...

Background Ramadan fasting is compulsory for all healthy adult Muslims. Although sick people are exempted from Ramadan fasting, some patients such as hemodialysis patients prefer to fast during Ramadan. The effect of Ramadan fasting on clinical outcomes and biochemical markers among hemodialysis patients is not clear. The aim of this study was to examine the effects of daily Ramadan fasting ...
