The time tells how many years ago it was made. The twist explains a little bit about how the tool is used or who invented it. There are many different tools in the book such as: sticks and stones, fire, Phillips screw drivers, plow, tape measure and many more! . . . My favorite tool in this book was the multitool because it has so many tools in one!

**Tool. Time. Twist: Shapiro, David R., Herndon ...**  
I enjoyed TOOL. TIME. TWIST for it's time line on when certain tools were invented. The artwork was pretty funny but women use tools too and I wished I could have seen that depicted. My granddaughter liked what she called cartoons, said her grandfather owned all those tools and then had no more interest. flag Like - see review
